Dear Nancy,

**Water & Agriculture: The Real Asset Investor Summit**  
**Terranea Resort, Palos Verdes, CA, May 16-17**

**LIMITED SPACES AVAILABLE - BOOK NOW!**

Increasing water scarcity and a growing population to feed is leading investors to seek direct exposure to real water and agriculture assets. As with other real asset investments like gold, fossil fuels, timber, and real estate, water and ag investments provide investors inflation protection, portfolio diversification and crisis resistant investments. The Water & Agriculture summit is an event dedicated to investment in water- and agriculture- related real assets. This event will explore these increasingly sought after investments and analyze current trends and opportunities in a macroeconomic context.

**Sessions include:**

- ***JUST ADDED! An Analyst View: The future of water and agriculture***  
Pricing, values and investments.
- ***Governments Role in Water Investing***  
How the government can facilitate an investment.
- ***Water Reuse, Services and Technology***  
Driving change and investment opportunities.
- ***Roll-on Opportunities for Groundwater Banking***  
Saving it for later- the market risks, challenges and opportunities for groundwater banking.
- ***Water-Energy-Agriculture Nexus***  
Rethinking how we use resources.
- ***Much more!***
